

Services

- We can pair you up with employers for a **paid internship or work experience** (yes, paid!). Paid work experiences allow you to explore different careers you might be interested in (where else are you going to find this kind of deal?). This experience can last as long as three months.
- If you are someone who has already figured out what you really want, another option is called **On-The-Job-Training**, or OJT, and it's a great choice! This option allows you to train on a jobsite with the expectation that you will do a great job and the employer will hire you!
- If you are totally unsure of what you want to do, you can come down for **Career Exploration** which is a one-on-one session with an Employment Specialist (who specializes in helping young adults) to talk about what you want and to hook you up with people who can help.
- When looking for a job your **resume and applications** play a MAJOR role on whether you will or will not get the job. You guessed it - we can help with that too! You would be amazed how many people qualify for jobs they don't get just because they thought they were completing their applications/resume correctly but they actually weren't. Trust us on this one!
- Other things we can help with include getting you stated on a career in the medical field including helping you **earn a Registered Nursing Assistant certificate**.
- The **High School Reentry program** is for students aged 16-18 who are low in credits but want to graduate with a high school diploma. To enter the program you must have a serious commitment to finishing your high school education and an ability to stay focused on that goal because you will be responsible to complete any materials given to you on time. If you need help you can get free tutoring also. It is a service that is offered at no cost to you. Just show you are dedicated to complete high school!
- An option for those of you who would do better in a **GED class**, we have that as well! This course available Monday-Thursday from 8:30 a.m. to 12:30 p.m. For this option the teacher will expect you to be there as much as you can (seriously). An instructor is always onsite to help you.
- And of course **college** is always an option for some people. If you want to go to college and you don't have enough money to pursue your dream, the Next Generation Zone might be able to help! We can hook you up with people that can help you complete the forms.

The Next Generation Zone can help! Call us today at (509) 340-7800
